

# *The potential of Higher Education for the common good*

## *SDGs and the new social contract to leave no one behind*

*In 2015 the world adopted the 2030 Sustainable Development Agenda articulated in seventeen Sustainable Development Goals. This new global frame sets out a vision for sustainable development grounded in international human rights standards, putting equality and non-discrimination at the centre of its efforts. It was established coherently with the principle to “leave no one behind”: an unequivocal, transformative commitment to pursue inclusion and shared prosperity. Education is central to this agenda.*
