COP26 call to action to researchers, innovators & engineers on the Glasgow Commitments

The UK hosted the 26th UN Climate Change Conference of the Parties (COP26) in Glasgow in November 2021. The summit brought together parties and non-state actors to accelerate action towards the goals of the Paris Agreement.

The COP26 Presidency has produced a call to action - Knowledge for Glasgow - to highlight opportunities for researchers, innovators and engineers to support the implementation of commitments made at COP26 under the Glasgow Climate Pact.

We would like to invite you to join the official launch of Knowledge for Glasgow and discuss how to take its recommendations forward. This virtual webinar will take place on 30 March 2022, 13:30-14:30 GMT. Please sign up via eventbrite.
